SOFT ROBOTICS

*m*Grip

Your on-demand, modular gripping
solution from Soft Robotics

EASY TO ORDER   **SIMPLE TO BUILD**   **QUICK TO DEPLOY**

Built on the award-winning Soft Robotics technology, *m*Grip brings infinite robotic grasping solutions to picking challenges that couldn't previously be automated. *m*Grip allows quick tool builds with countless configurations and spacing options getting your end-users operational quickly. *m*Grip can easily be configured with all the components you need to build, validate, and install a production-ready system in minutes.

1. CHOOSE YOUR GRIPPER

PARALLEL GRIPPERS

2 Finger   4 Finger   6 Finger

CIRCULAR GRIPPERS

4 Finger   5 Finger

2. ADD YOUR SPACER KIT

Spacer Kits provide you with the adaptability needed to handle a wide range of object sizes using a single gripper.

Available for both parallel and circular grippers.
3. PICK YOUR TYPE

STANDARD SYSTEM

FOOD SAFE SYSTEM

4. PICK YOUR CONTROLLER

Soft Robotics Control Unit,
Generation 2
